17011702	30/06/2020	1 x 30	09/07/2018

Generic Name: Ranitidine

Teva UK Ltd is recalling all unexpired stock of the above products from pharmacies as a precautionary measure due to possible contamination with an impurity N-nitrosodimethylamine (NDMA) which has genotoxic and carcinogenic potential.

**Advice for healthcare professionals**

- Please stop supplying the above products immediately. Kindly quarantine all remaining stock without delay and return it to your supplier using your supplier's approved process.
- If you receive queries about this issue from patients, advise them not to stop taking their medication as the health risk of discontinuing the medicine is higher than the potential risk presented by the contaminant. A treatment review is not necessary until the next routine appointment.

This is an on-going issue and the MHRA is actively involved with the European Medicines Agency and with other medicines regulators to determine any possible impact. An investigation into other potentially impacted products is continuing and further updates will be provided as the investigation progresses.

**Company contacts for further information**

For stock control enquiries please contact Teva Customer Solutions team on 0800 590502 or [customer.services@tevauk.com](mailto:customer.services@tevauk.com)

For medical information enquiries please contact Teva UK Medical Information Department on 0207 540 7337 or [UK.Safety@tevauk.com](mailto:UK.Safety@tevauk.com)

Recipients of this Drug Alert should bring it to the attention of relevant contacts by copy of this letter.

RQIA should bring this information to the attention of private hospitals/clinics registered with them and any other relevant care facilities

The Business Services Organisation is asked to bring this information to the attention of Community Pharmacists and General Medical Practitioners directly.

Recipients of this Drug Alert should bring it to the attention of relevant contacts by copy of this letter.
