35000206	07/2023	5 mL	23 July 2021

Active Pharmaceutical Ingredient: Olopatadine hydrochloride

### **Brief description of the problem**

USV UK Limited are recalling the affected batches as a precautionary measure due to out of specification results for impurities during routine stability testing. The company's investigation is on-going.

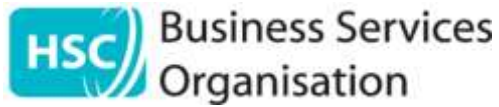

### **Advice for healthcare professionals**

Stop supplying the above batches immediately. Quarantine all remaining stock and return it to your supplier using your supplier's approved process.

### **Advice for patients**

No further action is required by patients as this is a Pharmacy and Wholesaler level recall.

Although the Marketing Authorisation Holder have not received any reports of adverse reactions related to the issue above, patients who experience adverse reactions should seek immediate medical attention. Any suspected adverse reactions should also be reported via the [MHRA Yellow Card scheme](#).
