

UPDATED FMD A L E R T

CLASS 4 MEDICINES INFORMATION

Caution in Use

Pharmacy and Wholesaler Level Recall

Dear Healthcare Professional

HMS Wholesale Limited

Brief description of the problem

The MHRA is currently investigating an incident where several medicines appear to have left the legal supply chain and have then been re-introduced via WDA(H) 50340 HMS Wholesale Limited. This License has now been terminated.

The products do appear to be genuine with legitimate batch numbers. These products are thought to have been stolen from the legitimate supply chain in early 2019 and reintroduced into the supply chain between May and August 2019. This means that the correct transport and storage conditions cannot be guaranteed and while unlikely, could impact their effectiveness.

Only the batch numbers mentioned below are within the scope of this alert. If you have received any of these batches listed in appendix 1, from WDA(H) 50340 HMS Wholesale Limited, please follow the advice below;

- Please check your stocks of all the listed products for the relevant batches supplied from HMS Wholesale Limited. If any relevant packs are identified, please quarantine and notify the DMRC/MHRA. **The products are listed in appendix 1.**
- Please note this alert only requires notification to the MHRA if you have been provided any of the products in appendix 1, directly from HMS Wholesale Limited only.

Recipients of this Drug Alert should bring it to the attention of relevant contacts by copy of this letter.

RQIA should bring this information to the attention of private hospitals/clinics registered with them and any other relevant care facilities

The Business Services Organisation is asked to bring this information to the attention of Community Pharmacists and General Medical Practitioners directly.

***Falsified Medicines Directive Alert**

Falsified Medicines Directive (FMD) 2011/62/EU introduced new requirements to enhance the security of the European supply chain. Where the MHRA has identified risks to the security of the supply chain, FMD Alerts will be issued. For further information about FMD and safety features, please see this [link on GOV.UK](#).

Appendix 1

Biogen Idec Ltd	
Plegridy 125 micrograms solution for injection in pre-filled pen	
Batch Number/s	Expiry Date
1424157	Sept 20
1423890	Jul 20
