

Supply Issues Update for Primary and Secondary Care: September 2021

This report has been produced by the Department of Health and Social Care (DHSC) Medicine Supply Team. We aim to produce this report monthly to provide an update on current primary and secondary care medicine supply issues that we are working on. This information is confidential to the NHS; please do not upload to websites in the public domain. Please do share with relevant colleagues and networks.

Where it has been stated 'a *Serious Shortage Protocol (SSP)* has been issued', this will be found [here](#).

Tapentadol (Palexia) 20mg/ml oral solution	13		
Tuberculosis (TB) oral agents	13		
Varenicline (Champix) 0.5mg and 1mg tablets	13		
Others	13		
Clindamycin (Dalacin) 2% vaginal cream	13		
Desmopressin (Desmospray) 10micrograms/actuation nasal spray.....	13		

Information provided: w/c 30 August 2021New IssuesInjectables

Lidocaine 200mg/20ml (1%)/adrenaline 100micrograms/20ml (1 in 200,000) (Xylocaine 1%) solution for injection vials

- Xylocaine 1% with adrenaline will be out of stock from mid-September until mid-October 2021.
- Xylocaine 2% with adrenaline remains available but cannot support an increase in demand.
- Alternative products containing a local anaesthetic and adrenaline remain available.
- Unlicensed imports of lidocaine 1% with adrenaline 1 in 200,000 can be sourced. Lead times vary.
- An MSN will be issued shortly.

Orals

Clomifene (Clomid) 50mg tablets

- Clomid 50mg tablets are out of stock until early December 2021.
- Generic clomifene 50mg tablets remain available and can support an uplift in demand.

Ketotifen (Zaditen) 1mg tablets

- Alfa Sigma, sole supplier, are out of stock until w/c 4 October 2021.
- Ketotifen (Zaditen) 1mg/5mL oral solution remains available and can support an uplift in demand.

Metformin 500mg/5ml oral solution

- Metformin 500mg/5ml oral solution is out of stock until mid-September 2021.
- Metformin 850mg/5ml and 1000mg/5ml oral solutions remain available but cannot support an increased demand.
- Metformin 500mg powder for oral solution will be available from early September but cannot fully support an increase in demand.
- An MSN will be issued shortly.

Piroxicam (Feldene) 20mg capsules

- Feldene 20mg capsules are out of stock until early October 2021.
- Feldene 10mg capsules remain available and can support an uplift in demand.
- Generic piroxicam 20mg capsules remain available.

Rosemont oral suspensions

- Rosemont have reported that due to IT issues with their regulatory systems there have been delays in releasing stock to the market.
- The products below are affected. Wholesalers should be stocked 2-3 working days after the resupply date listed below.

Product Names	Resupply Date
Amiloride 5mg/5ml oral solution sugar free (150ml)	6/9/2021
Amlodipine 5mg/5ml oral solution sugar free (150ml)	10/9/2021
Chloral hydrate 500mg/5ml oral solution sugar free (Specials)	6/9/2021
Clobazam 10mg/5ml oral suspension (150ml)	10/9/2021
Folic acid 2.5mg/5ml oral solution sugar free (150ml)	6/9/2021
Furosemide 20mg/5ml oral solution sugar free (150ml)	10/9/2021
Lofepamine 70mg/5ml oral suspension sugar free (150ml)	Back in stock
Memantine 10mg/ml oral solution sugar free (100ml)	Back in stock
Metformin 500mg/5ml oral solution (see information above)	TBC
Metoclopramide 5mg/5ml oral solution sugar free (150ml)	Back in Stock
Paracetamol 250mg/5ml oral suspension (500ml)	Back in stock
Verapamil 40mg/5ml oral solution sugar free (150ml)	Back in stock

Sodium cromoglicate (Nalcrom) 100mg capsules

- Nalcrom 100mg capsules are out of stock until w/c 1 November 2021.
- Specialist importers can source unlicensed products. Lead times vary.
- Sodium cromoglicate 100mg/5ml oral solution unit dose ampoules remain available but cannot support a large uplift in demand.
- An MSN was issued 2 September 2021 (attached).

Others

Dimeticone 22%/benzalkonium chloride 0.1% (Conotrane) cream

- Conotrane cream is out of stock until early November 2021.
- Clinicians should consider the indication and any hypersensitivity to excipients/antiseptic before recommending an alternative.
- A list of alternative products can be found in the [BNF](#).

Lidocaine 5%/hydrocortisone 0.275% (Xyloproct) ointment

- Aspen Pharmacare are currently out of stock until w/c 20 September 2021.
- Alternate topical anaesthetic/steroid preparations remain available:
 - o Uniroid- HC (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment
 - o Scheriproct (cinchocaine hydrochloride 5mg/prednisolone hexanoate 1.9g) ointment
 - o Proctosedyl (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment

Rivastigmine (Erastig) 13.3mg/24hours transdermal patches

- Erastig 13.3mg patches are out of stock until early November 2021.

COMMERCIAL-SENSITIVE

- Alternative brands of rivastigmine 13.3mg patches remain available.

Ongoing Issues

Injectables

Adrenaline 1mg/ml (1:1000) solution for injection pre-filled syringes (PFS) (1mL)

- Limited supplies of adrenaline 1:1000 injection PFS are available with remaining stocks expected to be exhausted by mid-September 2021 with resupply due in January 2022.
- Adrenaline 1:1000 solution for injection ampoules (1mL) remain available and can support an uplift in demand.

Adrenaline Auto-Injectors (AAIs)

- There are currently sufficient supplies of EpiPen and Jext to meet normal UK demand.
- The advice remains to conserve supplies of AAIs for patients who truly need them. All healthcare professionals providing services where anaphylaxis treatment may be required should have the competency to draw up and administer adrenaline from ampoules with a normal syringe and needle.
- We ask that when you renew the adrenaline in your anaphylaxis kits, you alert all your staff to please stock ampoules (ensuring you also include dosing charts, needles and syringes) and not AAIs.
- The [Green Book](#) and [Resus Council guidance](#) provides additional advice to healthcare professionals on the use of adrenaline in response to anaphylaxis.

Bleomycin 15,000unit powder for solution for injection vials

- Accord, sole supplier remains out of stock of bleomycin 15,000unit injection until at least mid-2022.
- Specialist importers can source unlicensed products. Lead times vary.
- An updated MSN was issued 14 June 2021 (shared previously).

Calcitonin (salmon) 50units/1ml solution for injection ampoules

- Essential Pharma, sole supplier, only has short-dated stock available (expiry 31/10/2021).
- Customers can order direct from Movianto if supplies are not available via wholesalers.
- Next resupply is expected in March 2022.
- Calcitonin (salmon) 100units/1ml solution for injection ampoules remain available and can support the uplift in demand if required.

Carboprost (Hemabate) 250micrograms/1ml solution for injection ampoules

- Pfizer are out of stock of UK licensed Hemabate injection until w/c 20 September 2021.
- Pfizer have sourced Hemabate injection from the US, considered unlicensed in the UK.
- Supplies are available via the Pfizer Customer Contact Centre on 0845 608 8866.
- Specialist importers can also source unlicensed products. Lead times vary.

Dehydrated Alcohol (Absolute Alcohol) BP for Injection

- Limited supplies of absolute alcohol (ethanol 100%) BP for injection are available until w/c 6 September 2021.
- Specialist importers can source unlicensed products. Lead times vary.
- In cases where alternative treatments are inappropriate, Trusts are advised to contact their Regional Pharmacy Procurement Specialist who may be able to facilitate stock sharing via mutual aid.

COMMERCIAL-SENSITIVE

Diamorphine 5mg and 10mg injection

- There have been intermittent supplies of diamorphine 5mg and 10mg injections available since early 2020.
- Accord are out of stock of both strengths with no re-supply date.
- Wockhardt have limited supplies of diamorphine 5mg and 10mg injections with resupply expected w/c 30 August 2021.
- Diamorphine 30mg injection is currently available.
- An MSN was issued on the 9 April 2021 (shared previously) reminding clinicians of the permanent actions they were asked to take in the [SDA](#) for diamorphine ampoules issued 25 March 2020.

Diazepam (Diazemuls) 10mg/2ml emulsion for injection

- Diazemuls 10mg/2ml emulsion for injection is out of stock long term.
- Lorazepam 4mg/ml solution for injection is available and able to support a full uplift in demand.
- Unlicensed imports of diazepam 10mg/2ml emulsion for injection can be sourced. Lead times vary.
- An updated MSN was issued 27 May 2021 (shared previously).

Enoxaparin (Clexane) pre-filled syringes (various strengths)

- A shortage of the ERIS automatic safety system will impact the availability of several Clexane pre-filled syringes until November 2021 (list below):
 - 4,000IU (40mg/0.4ml)
 - 6,000IU (60mg/0.6ml)
 - 8,000IU (80mg/0.8ml)
 - 10,000IU (100mg/1ml)
- To mitigate the supply issue during this period, Sanofi will supply Clexane with the PREVENTIS automatic safety system for the affected presentations only. This will be a UK licensed product.
- Other brands of enoxaparin biosimilars remain available but cannot support an uplift in demand.
- Organisations who use Clexane should prepare to have syringes with two different safety devices in use across the portfolio and ensure appropriate communication and training of health care professionals and patients is undertaken before September. The Sanofi Dear Health Care Professional letter was shared previously.
- An MSN was issued 27 July 2021 (shared previously).

Heparin calcium solution for injection 5000unit/0.2ml preservative free

- Wockhardt, sole supplier, are out of stock of heparin calcium 5000unit/0.2ml preservative free ampoules until October 2021 with exact resupply date to be confirmed.
- Heparin sodium 5000unit/0.2ml preservative free ampoules are currently available.
- Panpharma can supply heparin sodium 5000unit/1ml preservative free ampoules to support any gaps in supply. It is available for order via Mawdsley's. Although this is a lower concentration than heparin 5000unit/0.2ml, it is a higher concentration than heparin 5000 units/5ml which is routinely used.
- Other strengths of heparin remain available.
- An MSN was issued 25 June 2021 (shared previously).

Human normal Immunoglobulin (IVIg)

- There is a decreased volume of some presentations of immunoglobulin leading to a shortfall until December 2021.
- Trust level allocations have been cascaded to all Trusts in England.

COMMERCIAL-SENSITIVE

- Trusts are advised to assess patients who require long term immunoglobulin therapies and use allocations to minimise the need to switch between presentations and brands.
- An MSN was issued 19 July 2021 (shared previously).

Lorazepam (Ativan) 4mg/ml solution for injection

- Pfizer are out of stock with no confirmed date for resupply.
- Macure Pharma, a new entrant to the lorazepam 4mg/ml injection market have stock available through Oxford Pharmacy Stores (NHS hospitals) and Chapper Healthcare (all other customers).

Mitomycin 2mg and 10mg powder for solution for injection/infusion

- Mitomycin 2mg and 10mg vials are out of stock with no date for resupply.
- Other vial sizes of mitomycin for injection and/or infusion remain available including 20mg from Vygoris Ltd via Mawdsley's and 40mg from Accord-UK Ltd.
- Mitomycin for intravesical use remains available including 20mg from Vygoris Ltd and 40mg from Medac GmbH.
- Specialist importers can source unlicensed products. Lead times vary.
- An updated MSN was issued 24 December 2020 (shared previously).

Ranitidine 50mg/2ml injection

- Ranitidine 50mg/2ml injection is out of stock until further notice.
- An updated MSN was issued 30 March 2021 (shared previously).
- Further advice on alternative intravenous acid suppressants for paediatric patients can be found via the SPS website [here](#).

Sodium calcium edetate 500mg/10ml injection

- Sodium calcium edetate 500mg/10 ml injection is only available as an unlicensed preparation and is unavailable until late 2022.
- Mawdsley's have sourced an alternative unlicensed product from Italy, but this is a higher strength preparation of sodium calcium edetate (1000mg/10ml). This product is now available to order.
- The product information has been translated into English and Clinical Specialists consider this an appropriate replacement, albeit at a higher strength.
- The prescribing information in the SPC for this unlicensed product may not reflect UK practice.
- Toxbase and Medusa monographs have been amended to highlight availability of the higher strength product.
- Trusts are advised to work with their procurement teams and Medication Safety Officers to ensure any existing stock of the 500mg/10 ml product is not stored with this higher strength product to reduce risk of dosing errors and protocols/guidelines amended to reflect use of this higher strength product.

Somatropin 200microgram MiniQuick (Genotropin) device

- Genotropin 200microgram MiniQuick devices are out of stock until the end of October 2021.
- All other Genotropin lines remain available.

Tenecteplase (Metalyse) 10,000 units powder and solvent for solution for injection

- Metalyse is out of stock with resupply expected w/c 6 September 2021.

COMMERCIAL-SENSITIVE

- SPS MI have advised that alteplase (Actilyse) can be used as an alternative to tenecteplase.
- All strengths of Actilyse remain available and can support the increase in demand.
- Specialist importers can source unlicensed products. Lead times may vary.
- Ambulance services requiring further supplies of tenecteplase should contact their local Trust who may have stock to share/be able to source unlicensed supplies from specialist importers.

Tetracosactide (Synacthen Depot) 1mg depot injection

- Atnahs Pharma, sole suppliers are out of stock with resupply date to be confirmed.
- Specialist importers can source unlicensed products. Lead times vary.

Tinzaparin sodium (10,000 IU/ml) 3,500 IU in 0.35 ml and 4,500 IU in 0.45 ml pre-filled syringes

- Tinzaparin sodium 3,500units in 0.35 ml and 4,500units in 0.45 ml pre-filled syringes will be unavailable between mid-October 2021 and January 2022 (date TBC).
- All other presentations of tinzaparin remain available.
- Organisations who use tinzaparin for both prophylaxis and treatment of venous thromboembolism will need to consider if they wish to switch to an alternative low molecular weight heparin (LMWH) for all indications or just for prophylaxis.
- Impacted organisations will need to work with the relevant supplier to ensure their likely demand can be supported and take early steps to make certain their organisation can switch over safely before mid-October.
- Organisations should continue to order the impacted presentations of tinzaparin in line with demand while they work to switch over to an alternative LMWH. Leo Pharma will continue to monitor ordering patterns
- A Supply Disruption Alert ([SDA](#)) was issued 29 July 2021.

Tocilizumab (RoActemra) 80mg and 200mg solution for infusion vials

- RoActemra 80mg and 200mg solution for infusion vials are currently out of stock with no resupply date.
- RoActemra 400mg solution for infusion vials are currently available but in limited supply.
- Allocations have been put in place at a trust level, on a weekly basis, to safeguard remaining stock.
- RoActemra 162mg/0.9ml solution for injection pre-filled syringes and pre-filled pens remain available and are unaffected by this shortage.
- An MSN was issued 3 August 2021 (shared previously). An updated MSN will be issued shortly.

Urokinase (Syner-KINASE) 10,000IU and 25,000IU injection

- Syner-KINASE 10,000IU and 25,000IU injection are out of stock until December 2021.
- Syner-KINASE 100,000IU injection remains available and can support an uplift in demand (see DHCP shared previously).
- Details of other suggested alternative products, if required, can be found in the [SPS MI memo](#).
- An MSN was issued 27 May 2021 (shared previously).

Verteporfin (Visudyne) 15mg powder for solution for infusion

- UK licensed Visudyne is out of stock until January 2022.
- Visudyne from the USA (considered unlicensed in the UK) is currently available in restricted quantities from Neon Healthcare.
- Unlicensed imports cannot currently be sourced by specialist importer companies.
- Remaining supplies of Visudyne should be reserved for the treatment of ocular cancer patients.

COMMERCIAL-SENSITIVE

- An MSN was issued 27 May 2021 (shared previously).

Orals

Calcium gluconate 544mg/5ml / calcium lactate 276mg/5ml oral solution (Alliance Calcium syrup)

- Alliance Calcium Syrup is out of stock with resupply date to be confirmed.
- Patients in primary care should be referred to secondary care centres for review and management during the out-of-stock period.
- Any remaining supplies of Alliance Calcium Syrup should be reserved for neonates and patients in whom alternative options are not appropriate.
- All other patients should be switched to an alternative calcium formulation.
- An MSN was issued 27 May 2021 (shared previously).

Cetirizine 1mg/ml oral solution sugar free

- There are currently limited supplies of cetirizine 1mg/ml oral solution.
- UCB Pharma are currently in stock of cetirizine 1mg/ml oral solution (150ml).
- Pinewood is currently in stock of cetirizine 1mg/ml oral solution (200ml).
- Cipla have limited supplies of cetirizine 1mg/ml oral solution (200ml) which are being supplied to NHS England and Scotland contracts.
- Alternative suppliers remain in stock of cetirizine 1mg/ml oral solution (70ml).

Chloral hydrate 143.3mg/5ml oral solution

- Chloral hydrate 143.3mg in 5ml oral solution is out of stock until end of November 2021.
- Specials manufacturers have confirmed they can manufacture chloral hydrate 143.3mg in 5ml oral solution to meet demand of the licensed product.
- An MSN was issued 30 March 2021 (shared previously).

Clonidine (Catapres) 100 microgram tablets

- Catapres 100 microgram tablets are out of stock until w/c 4 October 2021.
- Clonidine 25 microgram tablets and clonidine 50 microgram/5ml oral solution remain available and can support an uplift in demand.
- Unlicensed imports have also been sourced. Lead times may vary.
- An MSN was issued 21 July 2021 (shared previously).

Cloral betaine 707mg tablets

- Atnah's, sole supplier, are out of stock with resupply expected in November 2021.
- Alternative medicines for insomnia remain available.

Colestipol (Colestid) plain 5g granules sachets

- Colestid plain sachets are out of stock with a resupply date to be confirmed.
- Colestid orange sachets are currently available.
- SPS MI have prepared a [clinical memo](#) containing further information on alternative bile-acid sequestrants.
- An MSN was issued 26 February 2021 (shared previously).

COMMERCIAL-SENSITIVE

Colestyramine (Questran) Powder for Oral Suspension

- Cheplapharm are out of stock of Questran Powder 4g sachets until January 2022.
- Specialist importers can source unlicensed products. Lead times vary.
- Colestyramine light 4g sugar free sachets remain available.
- SPS MI have prepared a [clinical memo](#) containing further information on alternative bile-acid sequestrants.

Contraceptive products (oral)

- See the table below for a summary of the supply position of oral contraceptive products.
- An updated MSN was issued 18 March 2021 (shared previously).

Product affected	Ingredients	Anticipated resupply date	Management Advice
Noriday	Norethisterone 350 microgram tablets	w/c 6 Sept 2021	<ul style="list-style-type: none"> – There are no exact equivalent preparations available in the UK market (see information below). – Clinicians are advised to refer to CKS guidance and BNF for advice. – Unlicensed imports have been sourced; lead times vary.
Norinyl-1	Mestranol 50microgram / Norethisterone 1mg tablets	w/c 6 Sept 2021	<ul style="list-style-type: none"> - There are no exact equivalent preparations available in the UK market (see information below). - Clinicians are advised to refer to CKS guidance and BNF for advice. - Unlicensed imports have been sourced; lead times vary.
Qlaira	Estradiol valerate / Dienogest (various strengths)	w/c 18 Apr 2022	<ul style="list-style-type: none"> - See SmPC- Qlaira for full list of active ingredients. - There are no exact equivalent preparations available in the UK market (see information below). - Clinicians are advised to refer to CKS guidance and BNF for advice. - Unlicensed imports have been sourced; lead times vary.

Fluoxetine 10mg tablets

- Endo Ventures are out of stock of fluoxetine 10mg tablets until June 2022.
- Fluoxetine 10mg capsules and fluoxetine 20mg/5ml oral solution remain available.
- A [serious shortage protocol](#) (SSP) was issued on 12 March 2020.
- An MSN was issued 12 March 2020 (shared previously).

COMMERCIAL-SENSITIVE

Glipizide (Minodiab) 5mg tablets

- Glipizide 5mg tablets are out of stock until mid-October 2021.
- Prescribers will need to review all affected patients and assess ongoing need for glipizide.
- If ongoing treatment is required, consideration should be given to prescribing an alternative sulfonylurea or glucose lowering medication.
- Alternative glucose-lowering medications, including sulfonylureas, remain available.
- Patients with monogenic diabetes (MODY) should remain on an equivalent dose of an alternative sulfonylurea.
- Unlicensed supplies of glipizide 5mg tablets have been sourced where the above options are inappropriate.
- An [SDA](#) was issued 2 August 2021.

Histamine (H₂) antagonists

- See the table below for a summary of the supply position with oral H₂ antagonists.
- An updated MSN was issued 18 March 2021 (shared previously).

Product	Supplier	Current Stock Position	Anticipated resupply date	Suggested management plan

Hormone Replacement Therapy products (HRT)

There are still some ongoing supply issues with HRT products, please see **Table 2** in the Appendix for a full update on the availability of all HRT products.

COMMERCIAL-SENSITIVE

Ethinylestradiol 10microgram/50microgram tablets

- UCB, sole supplier is out of stock due to manufacturing issues and unable to advise a resupply date.
- Specialist importers can source unlicensed products. Lead times vary.

FemSeven Transdermal patch range

- Theramex have confirmed that whilst new manufacturing arrangements are being established, FemSeven Mono patches will be out of stock until October 2021.
- FemSeven Sequi patches will be out of stock until the end of 2021.
- Specialist importers can source unlicensed products. Lead times vary.

Premique Low Dose

- Pfizer, sole supplier of Premique Low Dose, have advised there will be limited supplies until w/c 6 September 2021.
- Alternative oral continuous combined therapies remain available.

Isosorbide mononitrate (Imdur) 60mg modified release tablets

- Topridge, sole supplier, are out of stock with a resupply date to be confirmed.
- Parallel imports remain available as well as other brands of isosorbide mononitrate 60mg modified release tablets.
- If the brand is switched, reassure patients that they are receiving the same treatment and to seek advice in the unlikely event of experiencing an increase in side effects, such as headache, or an increase in use of glyceryl trinitrate.

Kolanticon Gel

- Kolanticon gel is out of stock until January 2022.
- Alternative preparations for symptomatic relief of gastro-intestinal disorders characterised by hyperacidity, smooth muscle spasm, including irritable bowel syndrome (IBS), and flatulence, remain available.
- An MSN was issued 16 June 2021 (shared previously).

Naftidrofuryl 100mg capsules

- Accord are out of stock until early October 2021.
- The brand, Praxilene, remains available and can support an uplift in demand.

Phenelzine sulphate (Nardil) 15mg tablets

- Neon Healthcare, the new suppliers of Nardil are currently out of stock. A resupply date is to be confirmed.
- Specialist importers can source unlicensed imports of the tablets.
- Supplies of phenelzine 15mg capsule specials are also available. Further information can be found in the SDA.
- An [SDA](#) was issued 25 June 2020 and a subsequent update was issued 3 July 2020.

Ranitidine oral preparations

- Ranitidine tablets, effervescent tablets and oral solution are out of stock until further notice due to global regulatory investigations.
- An updated MSN was issued 30 March 2021 (shared previously).

COMMERCIAL-SENSITIVE

Tapentadol (Palexia) 20mg/ml oral solution

- Batches of Palexia 20mg/ml oral solution have been [recalled](#) due to potential microbial contamination with resupply not expected until mid-2022.
- Palexia 50mg tablets remain available.

Tuberculosis (TB) oral agents

- Several TB medicines have been impacted by supply issues.
- See the table in the MSN for a summary of the supply position with TB medications.
- An MSN was issued 2 August 2021 (shared previously).

Varenicline (Champix) 0.5mg and 1mg tablets

- Pfizer, sole supplier of Champix, stopped the distribution of all products in the range in early June 2021 and are unable to confirm a resupply date.
- Pfizer have advised this is due to on-going global regulatory investigations, relating to the presence of nitrosamine impurities above Pfizer's acceptable level of daily intake in several batches.
- The MHRA have advised that, at this stage, batches currently in the market are not subject to a recall, and patients can continue to take their medicine if supplies are available.
- An [SDA](#) was issued 24 June 2021.

Others

Clindamycin (Dalacin) 2% vaginal cream

- Pfizer, sole supplier, are out of stock of Dalacin 2% vaginal cream until w/c 6 September 2021.
- Alternative topical preparations are available for the treatment of bacterial vaginosis.
- An MSN was issued 14 June 2021 (shared previously)

Desmopressin (Desmospray) 10micrograms/actuation nasal spray

- Ferring Pharmaceuticals have [recalled](#) Desmospray with resupplies expected Q3 2023.
- Desmopressin 10micrograms/actuation nasal spray remains available from Aspire Pharma Ltd.

Desmopressin (Octim) 150microgram/actuation nasal spray

- Desmopressin (Octim) 150 micrograms/actuation nasal spray is out of stock until Q3 2023.
- Ferring Pharmaceuticals have [recalled](#) Octim nasal sprays as a precautionary measure due to a lower volume of solution being observed and out of specification results of desmopressin acetate and benzalkonium chloride.
- Desmopressin (Octim) 15 micrograms/ml injection remains available and can be prescribed as an alternative.
- Unlicensed imports of desmopressin 150micrograms per dose nasal spray can be sourced.
- An MSN was issued 2 October 2020 (shared previously).

Fentanyl (Instanyl) 50 microgram, 100 microgram and 200 microgram nasal sprays

- Takeda are out of stock of all Instanyl nasal sprays until the end of February 2022.

COMMERCIAL-SENSITIVE

- Immediate release fentanyl products are not interchangeable and when considering switching patients from one product to another, patients should not be converted on a microgram per microgram basis from one to another; it is necessary to titrate the new formulation with advice from a specialist.
- SPS MI have prepared a [clinical memo](#) containing further information.
- The UK recall notice for Instanyl 100microgram can be found [here](#).

Flumetasone/clioquinol (Locorten Vioform) 0.02%/1% ear drops solution

- Advanz, sole supplier, are out of stock of Locorten Vioform ear drops until April 2022.
- Alternative combination steroid and antibacterial ear drops remain available.
- Clinicians should consider whether there is also a clear clinical need to co-prescribe antifungal ear drops, which remain available.
- An MSN was issued 21 July 2021 (shared previously).

Gentamicin 0.3% and hydrocortisone acetate 1% (Gentisone HC) Ear Drops

- Gentisone HC ear drops are out of stock until w/c 25 October 2021.
- Alternative combination topical ear products containing an aminoglycoside with a steroid remain available.
- An MSN was issued 12 July 2021 (shared previously).

Hydrocortisone 0.2% w/w and lidocaine hydrochloride monohydrate 1.0% w/w (Perinal) cutaneous spray

- Dermal Laboratories are out of stock of Perinal cutaneous spray until July 2022.
- Alternate topical anaesthetic/steroid preparations remain available:
 - Uniroid- HC (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment
 - Scheriproct (cinchocaine hydrochloride 5mg/prednisolone hexanoate 1.9g) ointment
 - Proctosedyl (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment

Metronidazole (Acea) 0.75% gel

- Ferndale Pharmaceuticals are out of stock of Acea 0.75% gel until mid-September 2021.
- Metrogel 0.75% and Rozex gel 0.75% gel remain available.
- An MSN was issued on 17 July 2020 (shared previously).

Vaccines

For updates on vaccine supply positions, please refer to PHE's [Vaccine Update Bulletin](#).
